

# Renew Your Skin

## Laser Hair Removal

Safely and effectively reduce unwanted hair from all parts of the body, leaving your skin feeling smooth and soft. Laser hair removal is effective for all skin types, including darker skin tones.

## Laser Skin Rejuvenation

Medical laser and intense pulsed light technology has evolved to provide non-invasive "no downtime" treatments that help improve the appearance of broken or raised capillaries, spider veins, birthmarks, portwine stains, Rosacea, age spots, sun spots and uneven pigmentation.

## Laser Leg Vein Therapy

Laser therapy is a non-invasive, "no-downtime" procedure that safely and effectively treats many types of leg veins, including shallow spider veins and reticular veins.

## Restylane®

A long lasting cosmetic filler that provides dramatic, immediately visible results for improving the appearance of facial lines, wrinkles and folds. Restylane® is also used to plump up lips, fill in scars and restore volume and fullness to the skin-giving you a more youthful and invigorated look.

## Microdermabrasion

A non-surgical exfoliating treatment that helps improve the appearance of sun-damaged skin, age spots, freckles, acne scarring, fine lines and rough skin.

## BOTOX®

FDA-approved therapeutic muscle relaxing agent that helps correct the visible signs of stress and aging.
